## Products

Our **SafeGuards® PREVENT Easy Up** is the *next generation* in spill containment utilizing a one-piece, no inflation, no assembly, drive-through secondary containment berm. Its Patent Pending design utilizes all the best features of available containments making it the most user friendly, functional and cost effective containment on the market today! Light enough to unfold by hand but tough enough for vehicle, equipment, and tank containment activity. The **PREVENT Easy Up** sets up quickly and easily in just minutes. The wall supports are integrated right into the wall of the berm and quickly lock into place when the wall is pulled upright! No tripping hazards walking around outside or inside the berm because there are no exposed wall supports. It has 100% useable space within the containment and allows for the smallest footprint at your site while also giving you the easiest containment design to clean. Available in our durable PolyChem 3; PolyChem 4; or PolyChem 5 chemical and hydrocarbon resistant materials. Standard and custom sizes available.

Pricing for our standard sizes in this material option are below:

**PolyChem 3** is a standard duty 30 oz. vinyl coated polyester material and should be used for containment applications of hydrocarbon, mild acids and caustics. Suitable for weekly vehicle entry and exit in conjunction with our **Tough Guards** matting.

<u>Item #</u>	<u>Material</u>	<u>Capacity</u>	<u>Size</u>	<u>Unit Price</u>

**SafeGuards® PREVENT is the original one-piece, proactive drive-through patented spill and secondary containment berm. (US Patent No. 5, 316, 175).** Light enough to carry but tough enough for vehicle drive-through. The **PREVENT** sets up in seconds—simply unfold the unit and you're ready! Wall Supports are on the inside of the berm. No tripping hazard walking around the outside of the berm from exposed wall supports. No waiting for "relax time"! Patented collapsible walls and tough, lightweight materials offer instant hazardous materials control.

**SafeGuards® PREVENT OS** provides the protection of the **PREVENT**, but uses outside support straps instead of inside support straps. The **PREVENT OS** (Outside Strap) is a one-piece, self contained portable berm system. We manufacture the **OS** with the same quality, pride, and craftsmanship as the original **PREVENT**. The **OS** offers unique, patented design features not available elsewhere. (US patent 5, 762, 233, foreign patents pending)

Pricing for our standard sizes in this material option are below:

The **PREVENT AB** (Angle Brackets) uses metal right angle brackets as the means of wall supports. Simply slide one bracket leg into the sleeve on the outside of the **PREVENT** wall, and the other goes underneath the berm floor. There are no supports inside or outside of the berm to possibly trip over or drive over. Largest working area inside the berm using the smallest overall footprint area. Angle Bracket assembly is required every 2 feet.

Pricing for our standard sizes in this material option are below:

**PolyChem 3** is a standard duty 30 oz. vinyl coated polyester material and should be used for containment applications of hydrocarbon, mild acids and caustics. Suitable for weekly vehicle entry and exit in conjunction with our **Tough Guards** matting.

<u>Item #</u>	<u>Material</u>	<u>Capacity</u>	<u>Size</u>	<u>Unit Price</u>

The **PREVENT Hybrid** was developed with your unique requirements in mind. Sometimes you need one wall to have Inside Supports, another Outside Supports, maybe one **Auto Rise**, and another Angle Bracket. The **PREVENT Hybrid** allows you to mix and match wall supports in any configuration that works best to solve your unique situation. All this at no additional charge! Contact us for additional information and pricing.

Material options for the **SafeGuards® PREVENT Hybrid**:

**PolyChem 3** is a standard duty 30 oz. vinyl coated polyester material and should be used for containment applications of hydrocarbon, mild acids and caustics. Suitable for weekly vehicle entry and exit in conjunction with our **Tough Guards** matting.

**PolyChem 4** is a heavy duty 46 oz. vinyl coated polyester material that provides spill containment protection when containing acids, hydrocarbons, and other caustic chemicals. Suitable for daily vehicle entry and exit in conjunction with our **Tough Guards** matting.

**PolyChem 5** is our premier geo-membrane material. It's a 32 oz. polyurethane coated nylon material and should be used for hydrocarbon application containment. Suitable for daily vehicle entry and exit in conjunction with our **Tough Guards** matting.

## Features

- Uses Any Wall Support Design on Any Wall
- **Mixed Wall Support Designs To Maximize Specific Solutions**
- Lightweight/Portable
- Drive-Through Design
- Compact Folded Design
- Two Year Warranty on Materials and Workmanship
- Custom & Standard Sizes

## Benefits

- Strong & flexible
- Easy to Fold, Transport, Store & Deploy
- Berm Wall Support System Designed To Meet Specific Needs
- Heavy Traffic Acceptable

The **SafeGuards® PREVENT AutoRise** is the first truly Drive-Through spill containment berm that requires no operator effort in controlling catastrophic rupture containment. The patented design allows the entrance & exit walls to remain flat during normal use. If a rupture occurs, the entrance & exit walls will **automatically raise** as the **berm** begins to fill. The patented design allows for the wall supports on the entrance & exit walls to operate as **PREVENT AutoRise** begins to fill, even with Tough Guards laying on top of the walls!

Material options for the **SafeGuards® PREVENT AutoRise**:

**PolyChem 3** is a standard duty 30 oz. vinyl coated polyester material and should be used for containment applications of hydrocarbon, mild acids and caustics. Suitable for weekly vehicle entry and exit in conjunction with our *Tough Guards* matting.

**PolyChem 4** is a heavy duty 46 oz. vinyl coated polyester material that provides spill containment protection when containing acids, hydrocarbons, and other caustic chemicals. Suitable for daily vehicle entry and exit in conjunction with our *Tough Guards* matting.

**PolyChem 5** is our premier geo-membrane material. It's a 32 oz. polyurethane coated nylon material and should be used for hydrocarbon application containment. Suitable for daily vehicle entry and exit in conjunction with our *Tough Guards* matting.

**SafeGuards® High Wall PREVENT** is a cost effective portable containment system where large volume containment is required in a relatively small area. Our largest unit can be setup by 4 people in under 1 hour. The High Wall PREVENT consists of a 3' wall and the containment capacity is 22 gallons per square foot. Call us for additional information or assembly instructions.

**SafeGuards® Hard Wall Containment** is a steel, one-piece, portable, containment basin. The steel containment basin is designed for long-term use on any surface. Call us for a quote!

### Features

- Meets EPA & State Regulations
- Available in drive in or drive on designs (with or without a grating system)
- Heavy-duty steel construction is designed for long-term use on any type of surface
- Drains located in all four corners for rain water removal
- **Available Sizes:**
  - 12' x 30' x 10"**
  - 12' x 40' x 10"**

### Benefits

- One piece containment basin allows for easy set-up with minimal assembly
- Portable
- Easy to Clean Sump Area with slip resistant protective coating to help prevent corrosion and rust

**SafeGuards® Hose/Pipe Containment** is a portable, lightweight spill containment solution for your hoses or pipes. Sections connect together to any configuration and can be integrated with the **PREVENT Containment Berms**. System sections consist of 10' and 20' straight runs; corners; intersections; and end caps. Contact us for more information!

### Features

- No Inflation
- Lightweight/Portable
- Patented Wall Supports
- Chemical Resistant Materials
- Two Year Warranty on Materials and Workmanship
- Sections connect to any configuration and can be integrated with the **PREVENT** Containment Berms

### Benefits

- Strong & flexible
- Easy to Deploy; Transport and Store
- Reusable
- Meets or exceeds EPA 40 CFR SPCC
- No site preparation

**TOUGHGUARDS** are heavy duty ground and track mats that fit under and on top of your **SafeGuards® PREVENT Containment Berms** to help protect them from punctures, debris, and tire abrasion. Available in widths of 2', 3', 5', & 6' and are priced per linear foot.

Price: \$13.00 per linear ft.

Item #: TG 2

Type: Tough Guards Ground Mat or Track Mat in 2' width.

Price: \$15.00 per linear ft.

Item #: TG 3

Type: Tough Guards Ground Mat or Track Mat in 3' width.

Price: \$17.00 per linear ft.

Item #: TG 5

Type: Tough Guards Ground Mat or Track Mat in 5' width.

Price: \$20.00 per linear ft.

Item #: TG 6

Type: Tough Guards Ground Mat or Track Mat in 6' width.

**SafeGuards® PREVENT Corner Caution Flags** install quickly at each corner of your berm.

Price: \$68.00

Item #: CCF

Type: Includes four

**PETRO-PIPE** is a safe and effective way to allow rainwater to drain from your **SafeGuards® PREVENT Containment Berms** while filtering out hydrocarbons such as diesel, jet fuels, and transformer oils from being discharged into the environment.

Price: \$416.00

Item #: PP 112

Type: with ball valve & 1 1/2" drain.

The **Pump-Out Kit** utilizes the **Petro-Pipe** to remove excess rain water from your **SafeGuards® PREVENT Containment Berms**. The **Pump-Out Kit** runs off a 12 volt battery and contains everything you need.

Price: \$780.00

Item #: POKPP

**Kit contains:** Bucket, Discharge Hose, Petro-Pipe with Filter Cartridge, Pump, Pump Leads, & Suction Hose with Strainer.

The **PREVENT Bridge** is a durable, lightweight, and chemical resistant polyethylene bridge used to lift your hoses, cables, and pipes up to 12" in diameter over berm walls or to keep them elevated over long distances.

**Price: \$419.00**  
**Item #: PVBR 12**  
**Type: Holds 12" pipe**

**Price: \$262.00**  
**Item #: PVBR 46**  
**Type: Holds 4"- 6" pipe**

The **PREVENT Repair Kit** contains everything needed to make on-site field repairs.

**Price: \$516.00**  
**Item #: PVRK**  
**Kit Includes:** (3) sheets 80D Sand Paper, 16" heavy duty tool box, 2" single-arm silicone seam roller, 6" industrial quality utility knife, 8 oz can HH-66 vinyl cement with brush-in-can (waterproof flexible bond), 8-1/2" stainless steel scissors, 10 square feet of repair material. (Specify Black, Tan, or O.D. Green Vinyl OR Tan Polyurethane Coated Fabric), Model 1220HS heat gun with slotted heat spreader, & instruction.

The **PREVENT Drip Berm** is an ideal catch basin and spill containment choice for small amounts of chemicals or oil spill control. Reusable, light-weight and accommodates a removable sorbent pad that can be removed and replaced with new absorbent pads in the field.

**Price: \$273.00 (5 Pack)**  
**Item #: DB21**  
**Type: 21" X 23" Drip Berms**  
**Cap: 1 gal ea/ 5 gal pack**

**Price: \$341.00 (5 Pack)**  
**Item #: DB22**  
**Type: 22" X 22" Drip Berms**  
**Cap: 1 gal ea/ 5 gal pack**

**Price: \$426.00 (5 Pack)**  
**Item #: EXT-DB**  
**Type: 24" X 36" Ext. Drip Berms**  
**Cap: 2 gal ea/ 10 gal pack**

**Replacement Pads** for the **PREVENT Drip Berm** can be removed and replaced with new absorbent pads in the field.

**Price: \$15.00 (5 Pack)**  
**Item #: RPL-PADS21**  
**Type: 21" X 23" Replacement Pads**  
**Capacity 1 gal ea/ 5 gal pack**

**Price: \$29.00 (5 Pack)**  
**Item #: RPL-PADS24**

Capacity: 239 gallons

Price: \$1,636.00

Item #: SWF-0610-PC4

Type: 6' x 10' x 8" PREVENT Sprayer Wash & Fill  
(PolyChem 4, 46 oz vinyl coated polyester)

Capacity: 296 gallons

Price: \$2,078.00

Item #: SWF-0608-PC5

Type: 6' x 8' x 8" PREVENT Sprayer Wash & Fill  
(PolyChem 5, 32 oz polyurethane coated nylon)

Capacity: 239 gallons

Price: \$1,760.00

Item #: SWF-0610-PC5

Type: 6' x 10' x 8" PREVENT Sprayer Wash & Fill  
(PolyChem 5, 32 oz polyurethane coated nylon)

Capacity: 296 gallons

The **PREVENT Truck Wash Berm** is designed as a mobile wash containment system. Instead of the standard 1' walls used on the **PREVENT IS** or **OS**, the Truck Wash berm uses 4" foam encapsulated entrance/exit walls with 4" foam side walls. This allows for continuous drive-over/drive-through applications where folding a wall up and down each time would be impractical.

Price: \$2,580.00

Item #: PVTW 1030

Type: 10' x 30' x 4" PREVENT Truck Wash Berm  
Capacity: 740 gallons

Price: \$3,120.00

Item #: PVTW 1040

Type: 10' x 40' x 4" PREVENT Truck Wash Berm  
Capacity: 987 gallons

Price: \$3,500.00

Item #: PVTW 1050

Type: 10' x 50' x 4" PREVENT Truck Wash Berm

**SafeGuards® Potable Water Bladders** are flexible, collapsible, foldable and storable when not in use. They are used wherever Potable Water storage is needed on a temporary, as well as, longer term basis. Use in Potable Water applications for military, disaster relief efforts, and remote requirements where clean, fresh water is not available. Potable water bladders are built using 36 oz polyurethane material.

<u>Item #</u>	<u>Material</u>	<u>Capacity</u>	<u>Unit Price</u>
BL-1000-PW	36 oz Poly	1,000 gallons	\$8,748.00
BL-3000-PW	36 oz Poly	3,000 gallons	\$11,135.70
BL-5000-PW	36 oz Poly	5,000 gallons	\$12,024.00
BL-10K-PW	36 oz Poly	10,000 gallons	\$15,997.50
BL-20K-PW	36 oz Poly	20,000 gallons	\$20,442.60
BL-50K-PW	36 oz Poly	50,000 gallons	\$36,642.60

**SafeGuards® Fuel Bladders** are flexible, collapsible, foldable, and storable when not in use. **SafeGuards® Fuel Bladders** are used for the storage of fuels on a temporary, as well as, long term basis. They can be used for multiple applications including construction site support, military operations, plant shutdown maintenance, oil spill recovery, bulk liquid transport, disaster relief support, bilge liquid waste and general fuel storage. Fuel tanks are built using 45 oz. polyurethane material.

<u>Item #</u>	<u>Material</u>	<u>Capacity</u>	<u>Unit Price</u>
BL-1000-F	45 oz Poly	1,000 gallons	\$8,683.20
BL-3000-F	45 oz Poly	3,000 gallons	\$10,310.40
BL-5000-F	45 oz Poly	5,000 gallons	\$11,659.50
BL-10K-F	45 oz Poly	10,000 gallons	\$17,110.80
BL-20K-F	45 oz Poly	20,000 gallons	\$21,071.70
BL-50K-F	45 oz Poly	50,000 gallons	\$35,673.30

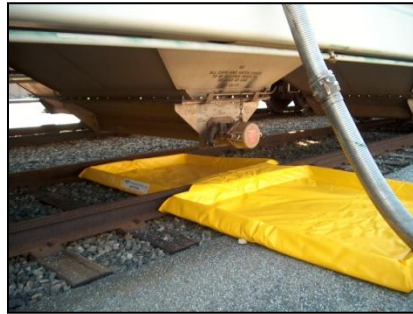

**SafeGuards® Grey Water Bladders** are flexible, collapsible, foldable and storable when not in use. They are used wherever Grey Water storage is needed on a temporary, as well as, longer term basis. Applications include construction site support, military operations, plant shutdown maintenance, oil spill recovery, bulk liquid transport, disaster relief support, bilge liquid waste, irrigation support as well as 100's of other uses. Standard sizes range from 100 gallons to 10,000 gallons. Custom sizes vary up to 210,000 gallons.

Pricing for our standard sizes in this material option are below:

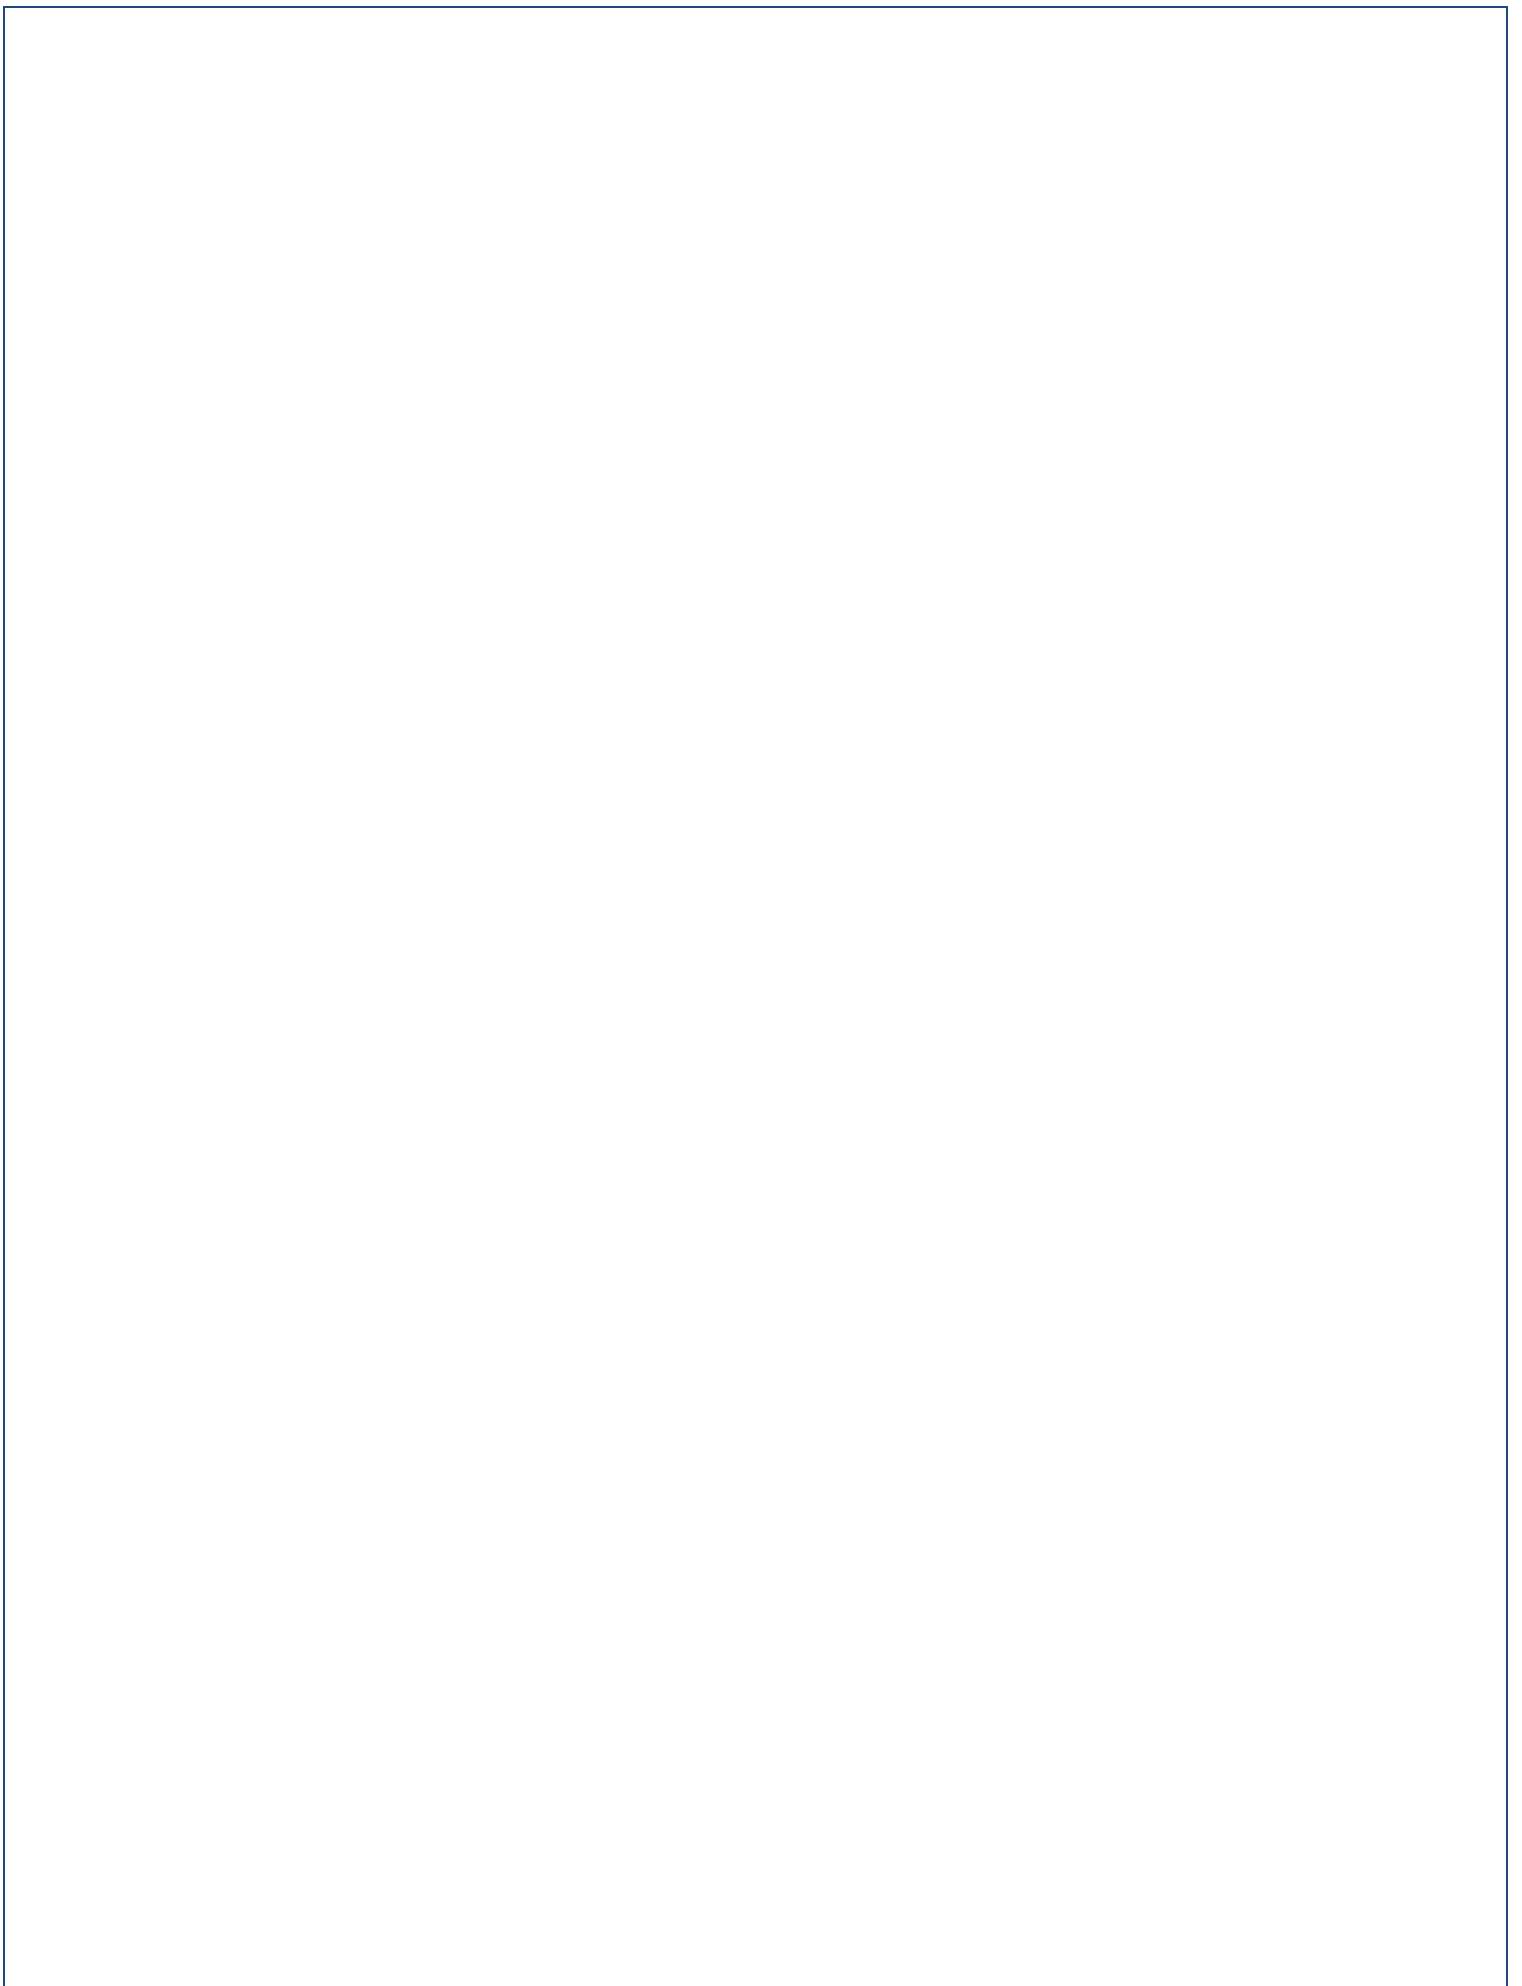

**PolyChem 3** is a standard duty 30 oz. material and should be used for containment applications of hydrocarbon, mild acids and caustics. Suitable for weekly vehicle entry and exit in conjunction with our **Tough Guards** matting.

<u>Item #</u>	<u>Material</u>	<u>Capacity</u>	<u>Size@Capacity</u>	<u>Unit Price</u>
BL-100-GW	PolyChem 3	100 gallons	5'Lx5'Wx1'H	\$ 944.00
