Mr Bob Blaskovic—General Manager
Millenium Enterprises, Inc.
PO Box 683186
Marietta, GA 30068

Dear Bob:

I am writing to express my gratitude for your prompt help with a recent crisis we were experiencing. You really were a life-saver.

We contacted MEI to help us solve some warehouse roof leak issues. A commercial roofing company had quoted us well over \$10,000. to correct the problem. Since the roofing company could not get us on their schedule for well over a week, we needed an immediate solution. MEI suggested a few of their Roof Leak Diverters that were easily installed by two of our employees, and they solved our problem for under \$200! Another problem we were experiencing was rainwater entering a warehouse through an overhead garage door. The Make-A-Bern solved that problem, easily and quickly, and it continues to be very effective in that area.

Aside from the effectiveness of these two products, we are quite pleased to have found MEI, a company that makes service a priority, Responding quickly and responsively to situations which are usually, by nature, emergencies, proves to be totally invaluable to our organization. Certainly, we give MEI and your products, a Five Star recommendation.

Janet G. Caswell
